EDUCATION

DON BOSCO SCHOOL KOKAR, RANCHI
INTERMEDIATE
March 2019 - May 2021   Percentage: 80%

LIEVENS ACADEMY, LOHARDAGA
SSLC
March 2014 - May 2018   Percentage: 74%

SKILLS

Frontend: Next.js, React, TypeScript, JavaScript, HTML5, CSS3, Tailwind, Framer Motion , shadcn/ui. Backend: Node.js, Express, REST work. Databases: PostgreSQL with Prisma, MongoDB. Auth: Clerk, NextAuth, OAuth, JWT. Tools: Git, GitHub, Vercel, Docker, CI/CD work.

SOFT SKILLS

- Leadership & Initiative
- Adaptability & Resilience
- Strong Communication Skills

Interests

- Modern Web Technologies: Staying updated with latest frontend frameworks and tools
- UI/UX Design: Creating intuitive and aesthetically pleasing user interfaces
- Performance Optimization: Building fast, efficient web applications

PROFESSIONAL EXPERIENCE

Grow2Viral   📍 Remote | 💰 Paid Project   WEBSITE
TypeScript, Next.js, TailwindCSS | March2025

- Developed and rebuilt an existing website with performance optimizations achieving 97/100 Lighthouse score.
- Collaborated with client requirements to deliver a modern, responsive website
- Implemented best practices for performance optimization and user experience
- Successfully delivered project within specified timeline and budget

TECHNICAL PROJECTS

Pov Thumbnail Generator   GITHUB , WEBSITE
TypeScript, Next.js, TailwindCSS | Feb 2025

- Built a POV thumbnail creator with Next.js that delivers fast, polished thumbnails using automatic background removal and ready-to-use layouts.
- Integrated Clerk authentication and Prisma ORM with PostgreSQL for secure user management and template storage
- Implemented drag-and-drop image uploads, instant previews, and reusable POV-style templates to ensure consistent branding for content creators.

House of X   GITHUB , WEBSITE
TypeScript, Next.js, TailwindCSS | Dec 2024

- Redesigned and rebuilt existing website achieving 97/100 Lighthouse Performance Score
- Enhanced accessibility score to 88/100 and achieved 100/100 for best practices
- Implemented comprehensive SEO improvements resulting in 91/100 Lighthouse SEO Score.

LLM Persona Chat   GITHUB , WEBSITE
TypeScript, Next.js, OpenAI, TailwindCSS | July 2025

- Built intelligent chat application with multiple AI personas (tech educators/YouTubers) using OpenAI API and Next.js. Implemented real-time streaming responses.
- Implemented secure authentication system using NextAuth 5.0 for user management and session handling
- Designed modern UI with shadcn/ui components for intuitive persona selection and chat interface.

Available for freelance projects and full-time opportunities. Open to remote work and collaboration.
